

'Reading is the key to a child's future: it unlocks their potential and opens up a world filled with possibilities.'

Dear parents,

In the UK today too many of our children, including 40% of our poorest children, leave primary school without being able to read well. We want to ensure our school is not part of this percentage and therefore we are raising the profile and importance of reading.

It is also important children do not stick to the same type of genre and make a variety of reading choices that are challenging and fun.

Working with you is vital, so in order to support your ongoing commitment with home reading, I have compiled reading lists for each year group. You will find these lists on our website. Depending on your child's reading ability, you may find it useful to access the other year groups. You can also find reading lists for reluctant readers and dyslexic readers too.

Some of these books can be found in our school library or your local library or can be purchased from a range of online/high street stores.

I would also like to recommend LoveReading4Schools.co.uk where you can find a vast amount of information about books and recommendations.

I am eager to find out how you get on so I have organised in each class, a copy of each reading list. When your child has read a book from the list, they should come in and write their name next to the picture of that book and give it a star rating out of five.

Thank you for your continued support,

Miss Richardson
